John Severance, Weak Minded Since Birth, Suddenly Becomes Violent.

Weak-minded since birth and until recently regarded as harmless, John Severance late Wednesday afternoon suddenly attacked his father and other members of the family and was not subdued till three policemen had struggled with him for several minutes. He was committed today to the Waterlown hospital.

The unfortunate man is 30 years of

tempts upon the lives of members of the family.

Wednesday afternoon he told his latter returned from work he attacked him, doing considerable damage to the contents of the dwelling before he was locked in a closet.

An appeal to the police brought LEAD SVEA CHORUS Officers Axel Johnson, Morrison and The services of Professor Victor Ross. The crazed man held the door eral scratches and bruises before he was manacled

At the police station where he spent the night it was necessary to strap him to the bed. Drs. A. T B. S. Bell ordered his commitment to the hospital. The Severance home is

Four Hundred Attend Annual Outing of the Protective

HEAR HELPFUL ADDRESSES

Colonel Buck Stars in 100-yard Dash for Men Over 45 Years of Age, Winning With Ease.

Four hundred milk producers, dealers and their friends from Moline, South Moline, South Rock Island and Coal Valley enjoyed the annual picnic of the Dairymen's Protective associalems that the dairyman has to face well as a social success.

Professor Bryan of the University of California, who was to have spoken on the care of milk, was unable to be on hand, having missed a train. He sent a promise to be at the picnic next year. Axel Kohler took his place on the program with an impromptu address on the law as it applies to the production of milk.

Others who spoke were Colonel George W. Buck of Sunny Hill on "The Buying and Selling of Cattle," 'The Care of Cows," and Dr. R. W. It has been arranged to continue the Oakley on "Testing Milk for Bacteria." PRIZES IN SPORTS.

After the basket dinner had been disposed of there were sports in which the leading event was the 100 yard winning over his nearest competitor, George Evans, and distancing a field SENATE MAY FIRE was not recorded but was something ess than half an hour.

Katherine Kroeger, daughter of Mr. and Mrs. Fred Kroeger, was given the prize as the prettiest baby. Ted Jamie son was awarded a bottle of grape juice as the best quadrille dancer. Supper was served at 6 o'clock and in the evening there was dancing which many remained to enjoy.

STRENGTH OF HUMAN BONES. More Powerful In Some Ways Than

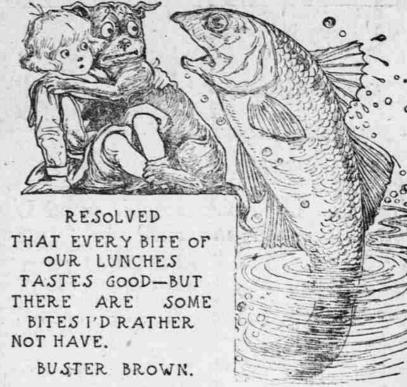

the Stanchest Oak. Human bones are really tremendously strong and possessed of marvelous resisting power. Indeed, the bones of the fairest, most delicate looking woman are stronger than the strongest oak.

Of course a bone is hollow, and that is one of the chief reasons it resists such extreme weights. For instance, a small bone which is no more than a square millimeter in diameter will hold in suspension without breaking some thirty-five pounds, while a stick of best onk of similar width will not hold more than twenty pounds. Indeed, the average bone of the average man is stronger by one half than that of solid oak.

The principle on which our bones are constructed, being made hollow and consequently stronger than if they were solld and beavier, is the same mechanics have followed the world over. Constructive engineers employ tubes instead of solid cylinders.

In the case of animals thousands of years ago one reason of their bulky frame is attributed by scientists as due to the fact their bones were solid and added to their weight.-Chicago
